SUMMARY

Technical Product Manager with a CS background and approx 2 years of full-lifecycle ownership of B2B SaaS and platform products. Built and scaled InboxDoctor (150+ active prospects) and ZenInbox AI (80+ customers in 3 months) from zero to production, driving REST API integration design, backlog management, Agile delivery, and data-driven retention improvements. Fluent in translating complex technical constraints into prioritized roadmaps, experienced working daily with engineering on system architecture, API workflows, and iterative delivery. Seeking to bring deep technical fluency and platform ownership discipline to a high-impact product role.

PROFESSIONAL EXPERIENCE

Associate Product Manager

Sept 2024 – Present

Lucid Growth

Bangalore, India

- Owned the full platform lifecycle of InboxDoctor, a B2B SaaS email deliverability platform, from requirements and system design through launch, managed the backlog, sprint planning, and release with cross functional team.
- Scoped and managed REST API integrations with 10+ ESPs using Postman for contract testing and versioning validation, ensuring backward compatibility and zero-downtime rollouts for active customer accounts.
- Defined platform KPIs and OKRs (Day-1 retention, activation rate, churn signals) tracked via GA4, PostHog & Microsoft Clarity; executed 3 cohort-backed UX iterations that increased Day-1 retention by 15%.
- Applied RICE framework to align engineering capacity with highest-impact features, used dual track Agile (discovery, design and delivery in parallel) to reduce time-to-MVP for ZenInbox AI to under 4 months.
- Spearheaded end-to-end delivery of ZenInbox AI—an AI-powered inbox management SaaS—from concept to MVP, scaling the product to 80+ active customers within 3 months of launch.
- Produced executive roadmap updates, stakeholder presentations, and technical requirement specs; aligned cross-functional teams on delivery risks, trade-offs, and milestone dependencies.

Product Management Intern

January 2024 – May 2024

Indietoga Sales Corporation

New Delhi, India

- Revamped D2C platform UX based on funnel drop-off analysis using Google Analytics, resulting in a 20% increase in organic traffic and measurable conversion improvement within the first month.
- Designed and deployed a custom ‘Pick and Pack’ logistics system integrating REST APIs for automated order routing, reducing processing time by 30% and eliminating manual verification errors entirely.
- Developed and tracked growth campaign KPIs across targeted digital channels, increasing total addressable market reach by 15% over a 4-month period.

Full Stack Developer Intern

May 2022 – June 2022

Climbax Entertainment Pvt. Ltd.

New Delhi, India

- Developed 25 screens and forms for a Next.js web platform; documented and tested REST APIs end-to-end, ensuring 100% functional coverage across all server-side integrations.
- Built backend functionalities for a production barbershop platform, ensuring seamless server-side integration and stable deployment.

EDUCATION

JK Lakshmipat University

Jaipur, India

B.Tech in Computer Science Engineering; **CGPA: 8.0**

July 2020 – June 2024

SKILLS

Technical: Python, SQL, REST API Design & Management, API Testing, System Architecture, HTML, CSS, QA, GCP, Azure

Product Management: Platform & API Product Ownership, PRD, RICE / OKR-based Prioritization, Backlog Management, Sprint Planning, Release Coordination, MVP, Dual-Track Agile, RCA, Requirement Gathering, A/B Testing, GTM.

Data & Analytics: SQL, PostHog, GA4, Mixpanel, Amplitude, Looker, PowerBI, Cohort Analysis, Funnel Analytics

UX & Design: Wireframing, Prototyping, Figma, Usability Testing, User Journey Mapping, Design Systems

Tools: Jira, Confluence, Postman, Figma, Notion, Trello, Airtable
